ANURAG KAPOOR
FULL-STACK WEB DEVELOPER

ABOUT ME

Hi, I'm Anurag Kapoor, a passionate Full Stack Web Developer with expertise in the MERN stack. I love turning ideas into seamless, high-performing web applications. From crafting real-time chat apps to developing e-commerce platforms, I thrive on building intuitive and scalable solutions. My latest project, ETail, showcases my ability to create a dynamic and engaging shopping experience. I'm always exploring new technologies and pushing the boundaries of web development. Let's build something amazing together!

EDUCATION

Bachelors Degree in Computer Applications

Jun 2022 - May 2025
- Hindu College
- Amritsar

Class XII (CBSE)
(Non-Medical) March 2022

- **Score: 90%**
- Modern High School
- Amritsar

Class X (ICSE)

March 2020
- **Score: 85%**
- Model Study High School
- Amritsar

SKILLS

- *Bootstrap 5*
- *JavaScript*
- *React.js*
- *Next.js*
- *Node.js*
- *Express.js*
- *MongoDB*
- *Mongoose*
- *SQL*
- *Git*
- *Github*
- *Postman*
- *Cloudinary*

INTERESTS

- Cricket
- Learn New Technologies

WORK EXPERIENCE

Bharat Intern *(Internship)*
Full Stack Web Developer

Remote
1st August, 2024

In this internship, I learned how to build both front-end and back-end applications, work with databases, enhance problem-solving skills, collaborate on real-world projects, understand version control, and refine debugging techniques. I also gain exposure to modern frameworks, APIs, cloud deployment, and development workflows.

Projects during this internship

- **MONEY TRACKER APP**

(A money tracker app built with the MERN stack allows users to efficiently track income and expenses.)

- **SIGN UP PAGE**

(A sign-up page built with the MERN stack enables users to securely create accounts, featuring responsive front-end design with React, integrated API calls to a Node.js/Express backend, and seamless data storage in MongoDB.)

PROJECTS

• ETail (A Modern E-Commerce Platform)

Technology: React, Bootstrap, Express, MongoDB, Cloudinary, Stripe

Description: ETail is a modern e-commerce platform built with the MERN stack, offering a seamless shopping experience. It features secure user authentication with JWT, payments via Stripe, and image management through Cloudinary. The site is responsive, using ReactJS and Bootstrap, with a back-end powered by ExpressJS, Node.js, and MongoDB. Version control is managed through GitHub.

• VGossip (Real Time Chat Application)

Technology: React, Chakra UI, Node, Express, MongoDB, Socket IO

Description: A real-time chat application built using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Socket.IO for seamless communication. It supports instant messaging with persistent chat history, dynamic user connections, and notifications. The app features a responsive UI, real-time updates, and scalable architecture for multiple users.
